

Higher-Income Multifamily — SE Florida

4+ units · cap rate ≥ 6% · MLS-reported income · Palm Beach · Broward · Miami-Dade · ranked by cap rate · Beaches MLS + Crexi

Prepared for your visit. A screened, income-first shortlist of on-market multifamily across Palm Beach, Broward, and Miami-Dade — four units and larger, each underwriting to a cap rate of 6% or better. Seventeen are drawn from Beaches MLS listings that publish their income and expenses, so the cap rates shown are computed from MLS-reported net operating income (not broker teaser figures); one is a Crexi-listed coastal 8-unit. Ranked by cap rate, highest first. Each is broker-reported and unverified — confirm income, expenses, and unit count against the offering memorandum and trailing-12 financials.

Shortlist — highest cap rate first (18)
