

Coastal Multifamily — Palm Beach to Miami-Dade

4+ units · up to \$3M · within ~1 mile of the ocean · on-market < 6 months · cap rate first · Crexi + Beaches MLS + LoopNet

A screened shortlist of on-market coastal income multifamily that fits the buy box — four units and larger, priced to \$3,000,000, within roughly a mile of the Atlantic, and listed within the last six months. Short-term-rental / hotel-licensed buildings are excluded (long-term rental income focus). Listings with a reported cap rate lead the list, highest first; strong near-the-beach buildings that don't publish income follow. Each links to its live listing with photos and the full offering package. Figures are broker-reported — confirm against the offering memorandum.

Shortlist — highest cap rate first (6)

#	Address	City	Src	Units	Price	\$/Unit	Cap	Yr	~mi	Days
